

DivDat's Web / Online Portal Leveling the Paying Field™

The DivDat Kiosk Network, long recognized for delivering simple and secure low-cost bill payment systems fee-free to your customers, now offers a customizable web / online bill payment system to increase your revenue collections.

This real-time, highly reliable and easy-to-use online system, provides customers a well-tested option that can reduce your costs by freeing up your customer service representatives and cashiers to perform their other work functions.

With DivDat's approach your customers access a customized web-based payment portal, which is also configured to be mobile responsive for phone devices. Utilizing the web portal, customers can make their bill payments with credit or pinless debit cards, or through a checking account. Receipts can be set up to be emailed or texted to your customers.

The web portal, which does not require customers to setup an account, can also be branded with your company logo, fonts, color and artwork, all designed to enhance the customer experience and create a seamless approach to web payment processing.

Behind the Scenes Options for Customer Service Staff

DivDat has developed a standardized, fast and simple payment workflow for your team. Guided by top industry standards, our comprehensive back-end system supports the web / online payment portal.

This allows your team to more efficiently collect and retrieve customer account or statement information and post payment information in real-time or using a daily batch approach.

The system also includes a multiple search option to help your team locate customers, retrieve account information or recover statement records.

Establishing "best practice" industry standards is a hallmark of the DivDat approach.

Besides ease of use, to our web portal system is designed to ensure that all financial regulations are met related to issues of overpay/ underpay, fixed value, and other restrictions.

The portal also offers access information and a DivDat Kiosk locator map link for our growing network of bill- paying kiosks account information or recover statement records.
